

HMK® R57 Ceramic Tile Intensive Cleaner

For glazed and unglazed ceramic and porcelain tiles, terracotta, brick/block paving and clay tiles.

Removes oily and greasy marks, film built up from regular cleaning products, general construction dirt and light cement smears.

Suitable for use on most polished surfaces.

HMK® R57 is a special concentrated cleaner that removes oily and greasy marks, film built up from regular cleaning products, general construction dirt and light cement smears from glazed and unglazed ceramic and porcelain tiles, terracotta, brick/block paving and clay tiles. For internal and external use.

R57 is suitable for use on most polished surfaces.

Instructions: If under floor heating exists, switch it off and allow the surface to cool. Apply R57 diluted with water (1:2 to 1:10) depending on the intensity of the dirt. Use a scrubbing brush, stiff hand brush or suitable pad to work the R57 into the surface. Leave for around 10 minutes but do not allow to dry. Scrub the area again and remove the dirty liquid. Afterwards rinse the area thoroughly with clean water.

For stubborn dirt and stains, R57 can be used undiluted.

When using a wet vacuum we recommend that you add HMK® Z102 Defoamer to the water to regulate the amount of foam.

Important: Do not apply in direct sunlight. Do not apply on plastic, polished or waxed wood and lacquered areas. If these areas are splashed, remove splashes and rinse thoroughly with clean water.

Coverage: About 10-80m²/litre.

Warning: Chemical product. Contains surfactants, release and control agents and scented oil. Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.
