

HMK® R60

Moss and Mildew Remover

Ready to use spray on cleaner for removing and preventing re-growth of moss, mould and mildew from steps, paths, gravestones, walls etc...

Fast working and effective on all polished, honed and textured natural and artificial stone surfaces.

For internal and external use.

HMK® R60 is a ready to use spray on cleaner for use on smaller surfaces. R60 works fast to eliminate and prevent the re-growth of moss, mould, fungus, lichens and mildew from steps, paths, gravestones, walls, garden ornaments etc... Polished surfaces are not damaged.

R60 is also extremely effective for bleaching organic stains caused by things such as coffee, cola, red wine, flowers, berries, fruit and fruit juices etc... For internal and external use.

Instructions: Protect all adjacent non-masonry surfaces. R60 will cause discolouration on textiles and some metals. Ensure flowers and plants are protected against splashes. Ensure that the area to be treated is cool and dry. Spray R60 undiluted directly onto the surface. Leave it for a few minutes but do not allow it to dry and then work it into the surface with a stiff brush, scrubbing brush, or suitable pad. Afterwards rinse the surface thoroughly with clean water. Repeat the procedure for surfaces with very strong contamination.

Do not apply in direct sunlight. R60 should be used within 6 months of purchase. R60 becomes harmless to health and the environment after being exposed to air and light for about 5-10 minutes.

Recommendation: Once treatment is complete allow the stone to dry for 12 to 24 hours and apply a suitable HMK® impregnator. This will prevent water penetration and further restricts re-growth.

Coverage: About 3-5m² per bottle.

Warning: Chemical product. Contains sodium hypochlorite. Corrosive. Avoid contact with eyes, skin, clothing or metals. If exposed, wash/flush with water. Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.

Packaging: 12 x ½ litre bottles/box; 4 x 5 litre cans/box.

Storage: Store in cool, dark area for up to 6 months at temperatures not below 10C.

Testing: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 12 and above 25 °C.

Limitation of liability: The liability of HMK® Moeller Stonecare for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stonecare shall not be liable for any consequential damages. No other warranty or representation is made or implied.
