

HMK® R85 Intensive Cleaner for Composite Quartz

Special cleaner for all polished, honed and brushed composite quartz surfaces.

Removes fatty, oily and greasy substances, general construction dirt, cement and grout smears, wax coatings and film built up from regular cleaning products. For interior and exterior use.

Concentrated.

HMK® R85 is a concentrated cleaner for removing fatty, oily and greasy substances, general construction dirt, cement and grout smears, wax coatings and film built up from regular cleaning products from polished, honed, satin and brushed composite quartz materials. For interior and exterior use. Polished surfaces will not be damaged.

Instructions: If under floor heating exists, switch it off and allow the surface to cool. Apply R85 diluted with water (1:2 to 1:10) depending on the intensity of the dirt. Use a scrubbing brush, stiff hand brush or suitable pad to work the R85 into the surface. Leave for around 10 minutes but do not allow to dry, scrub the area again and remove the dirty liquid. Afterwards rinse the area thoroughly with clean water.

For stubborn stains, R85 can be used undiluted.

When using a wet vacuum we recommend that you add HMK® Z102 Defoamer to the water to regulate the amount of foam.

Important: Do not apply in direct sunlight. Do not apply on plastic, polished or waxed wood and lacquered areas. If these areas are splashed, remove splashes immediately and rinse thoroughly with clean water.

Coverage: About 20-60m² per litre.

Warning: Chemical product. Non-flammable, mild odour. Keep out of the reach of children. See Material Safety Data Sheet for more detailed information.
